The Site for Orden's Ice Plant Has Been Selected.

Chief Binford's Case to Be Investigated Today-Union Printers Resume Work on the Standard.

OGDEN, March 22,-Today the projectors of the ice manufacturing enterprise selected the site for their plant, which will be at the intersection of Wall avenue and Twenty-third street, on the Union Pacific track. The machinery will leave Chleago on Saturday, and by the time it reaches Ogden the buildings will be in readiness for it, provided the weather

WILL INVESTIGATE TODAY.

Tomorrow morning at 10 o'clock, Mayor Lundy will call the "investigating" committee together and proceed to take evidence regarding the actions of Chief Binford and other members of the fire department at the burning of the Utah loan and Trust company building. As was stated yesterday would be the case, a great many important witnesses for the people will not attend, and the result is almost certain to be in Binlord's favor. It is asserted, however, that efforts will be made before the hearing commences to secure the services of Mesars, Evans & Regers and H. H. Rolapp to represent the public is not swindled.

A STANDARD SETTLEMENT.

A STANDARD SETTLEMENT. All difficulties between the Standard and All difficulties between the Nondard and the Typographical union were satisfactority adjusted this afternoon and tonight the union men are all at work at their cases. It is understood the union submitted to certain changes in the scale of prices paid that will enable the paper to pay expenses at least. Since his return Mr. Cannon has devoted his entire time to the case and with his usual indomitable energy secured a settlement which meets the approval of

with his usual indomitable energy secured a settlement which meets the approval of all concerned.

At last, indications point to the opening of spring in earnest, and the several great enterprises which are only awaiting settled weather will soon be under way.

THE AHERN CASE. It is very probable that the Ahern hat cas corpus case will never be called formal, the plaintiff, John Abern, havin arrived, it is said, at the conclusion the to push matters would be useless. Aher petitioned for the custody of the for minor children now supported by h wife, Margaret Ahern, and their olde son, John Ahern.

PAVING ORDINANCE PASSED. At a special meeting tonight the ci-council passed an ordinance providir for the paving of Twenty-fifth stre-from the Union Depot to Washingto avenue with sephaltum and Utahsan-stone, Only residents of Ogden will a sallowed to bid on the work.

PROVO PARAGRAPHS.

by the City Council.

Provo, March 22.-An agreement ha been entered into between Judge J. D. Jones and a committee composed of Mesers, Hannberg, Barney and Simmons

Mesars. Hannberg, Barney and Simmons, of the city council, giving the use of the cid federal court room to the council, and the cifice formerly occupied the district judge, for the mayor.

All offices below will be used by county officers. One-third of the expense of heating, lighting, etc. will be borne by the city. This, however, will be presented before the council, and county court for settlement.

Frod Kirkwood and Steve Jones were fixed \$7 and \$10 respectively for fighting. The former pleaded not guilty and was tried, the latter entered a plea of guilty.

Another saloon row occurred today between George Stagg and John Buckler, and some vigorous smashing went on for a short time.

"A Turkish Bath" went last evening to a very good attendance.

Ballard's Snow Lintment.

Ballard's Snow Limment.

This Liniment is different in composition from any other liniment on the market. It is a scientific discovery which results in it being the most penetrating Liniment ever known. There are numerous white imitations, which may be recommended because they pay the seller a greater profit. Beware of these and demand Ballard's Snow Liniment. It positively cures rheumalism, neuralgia, sprains, cuts, bruises, wounds, sciatic and inflammatory rheumalism, burns, scalds, sore feet, contracted muscles, stiff joints, old sores, pain in back, barb wire cuts, sore chest or throst, and is especially beneficial in paralysis, Sold by Z. New York March 21.—There was a distinct improvement on Wall street 'edry, owing to the smooth working of the money market and the fast that up to the present time no gold engagements have been reported. Dentings although comparatively small, were well distributed, and the advances also were general. Quotations showed an advance on yearchay's hours of '4 to 2's per cent, with Industrials, Coalers, Manustrian and New England in the lead. The market closed firm in tone, with prices anywhere from 1 to 31 per cent above last night's Figures.

IT IS A BOON TO READ-

We sak every reader to consider the offer made in our advertising columns of a complete set of the Americanized Encycloredia Britannica for the small sum of \$5.00 on delivery of the complete set, and \$2.50 a month for ten months. This proposition is made solely on condition of your subscribing to this paper for one year; all our present subsoribers are entitled to all the advantages of this offer. Such a proposition was never made by any newspaper before, and the fact that we are able to make it is a striking illustration of the wealth producing progress of the world in this wondrous age of electricity and steam. The cost of producing the encyclopædia has considerably exceeded \$1,000,000. That such a work should be placed at the disposal of every resident of this section at a price so small that the saving of sight cents daily for eight months will cover It, and on terms so easy as to involve no inconveniences of economy-this surely is a triumph of modern intelligence and labor combination.

What the Americanized Encyclopsdia Britannica is, however, is a matter as to which information is not generally diffused. The Eucyclopædia Britannica is regarded by all students and literary men as the standard reference authority of the English speaking world. For nearly one hundred and twenty years it has stood at the head of its peculiar class of literature, employing on its nine editions the most colebrated writers of successive generations, and sparing no expense necessary to secure the services of the foremost men in every department of human knowledge. Essays, dissertsious and descriptions by such men as Macaulay, Joffrey, Leigh Hunt, Faraday, Mill, Tyndall, Huxley, Clifford and Farrar are imbedded in its pages, making it not only an encyclopædia of facts, but a most delightful assortment of literary treasures as well. This is the work which forms the

basis of the Americanized Bocyclops-

25e to \$1 25

dia Britannica, which is, as its name imports, the original Britannica remodeled, amended and, where necespary, enlarged to fit it to occupy in American homes the place held by the original work among the people of England. Articles on subjects peculiarly interesting to Americans such as the histories and descriptions of American states and cities, accounts of military operations on American soil, descriptions of peculiarly American industries and institutions-have been entirely rewritten and greatly enlarged, the space alloted to matters uninteresting except to Englishmen being correspondingly reduced. A most complete series of biographies of living persons-of whom no mention is made in the original work, its plan excluding notices of any but the dead -has been added, a number of new maps, including one of every state inthe union, have been introduced and the entire work has been corrected to bring it into line with the progress of history and science up to the present year. The net result is a compilation that in interest and reliability, surpasses the original Encyclopædia Britannica as far as that monumental work surpasses all others of its kind. It may not be amiss to say here a few words to one of the uses of a work like the Americanized Encyclopædia Britannies, to which many of our readers, perhaps, give little thought. The high price at which the Encyclopmdia Britannica and its competitors have hitherto been offered have resulted in limiting their sale to literary men and comparatively wealthy families, and the effect of this limitation has been that by the great mass of American people an encyclopedia is looked on as work of reference and nothing more; something useful to students, but rarely needed by men of non-professional vocations. How mistaken this idea is anybody will instantly see who will take the trouble to glanes. through a volume of the Americanized Encyclopedia Britannica. From end to end it abounds in reading of the most delightful kind-biography, travels, history, narratives of adventure, accounts of strange and distant countries, descriptions of inventions and machinery. There is hardly a page of it that will not hold the mind enchained. The influence of such a literary collection in a family is incalculable. It sids the education of the young; it expands and strengthens the minds of older people; it fosters a taste for profitable reading and saves the young from one of the greatest dangers of our day - the temptation offered by the thousands of chesp. teashy and corrupting books that deluge our country in a perennial stream. A library of reference, a collection of pure and entertaining literature, a vehiele of education and a safeguard against vice - this is what we offer to sur readers
